What gets a government post SHARED?

Every share is a resident doing your
distribution for you. Here's what they
actually forward.

1

+325%

Help find someone.

Missing-person and lost-pet posts average 27.4 shares vs 6.5 — residents mobilize their own networks when you ask for eyes.

AVG SHARES PER POST

2

+122%

Warn about scams.

Scam and fraud alerts average 14.4 shares.
Residents forward them to the people they
worry about.

AVG SHARES PER POST

3

+72%

Put a person in it.

Posts naming an officer, chief, or mayor average 10.8 shares — people forward people.

With

Without

AVG SHARES PER POST

ALSO FORWARDED — AND THE TWIST

Job postings	+50%
---------------------	-------------

Weather advisories	+41%
---------------------------	-------------

Road & traffic updates	+35%
-----------------------------------	-------------

Event invites	-11%
----------------------	-------------

The one thing residents DON'T forward: the flyer. Invites get shared 11% less than average — usefulness travels, promotion doesn't.

THE PLAYBOOK

- ① **Make it useful enough to forward — alerts, jobs, closures.**
- ② **Put a person at the center of it.**
- ③ **Ask residents to be your eyes when it matters.**
- ④ **Promote less; inform more.**
