

HOW GOVERNMENTS TALK ABOUT

License plate cameras.

Communities are landing in different places on Flock and other plate readers. How they talk about it is worth borrowing, whatever they decide.

Clark County Sheriff's Office Discontinues Use of Flock Cameras

The Clark County Sheriff's Office is no longer using Flock Safety cameras. On September 10, 2026, I notified Flock Safety that the Sheriff's Office was canceling its contract and discontinuing the program in Clark County.

As Sheriff, I have a responsibility both to provide our deputies with effective tools to keep our communities safe and to listen to the people we serve. I heard the concerns expressed by Clark C... [See more](#)

WHY IT WORKS

The sheriff explains the decision in the first person and names both sides of it: effective tools for deputies, and listening to the people they serve.

HENDERSON · KENTUCKY

Invite residents in before you decide.

WHY IT WORKS

A public forum announced weeks ahead, with a date, a time, and a room. Residents get a real place to weigh in, and the city hears concerns early.

SYRACUSE · INDIANA

Answer the question before it spreads.

Town of Syracuse
on Monday

PUBLIC ANNOUNCEMENT:

Commonwealth Engineering will be placing traffic count cameras along Huntington St. this week. These are not Flock cameras, but merely cameras to count and document the amount of traffic along Huntington St. for future planning.

WHY IT WORKS

New cameras on Huntington St.? The town said what they are, and what they aren't: traffic counters for future planning, not Flock cameras.

THE THROUGH-LINE

Clear, early, and in your own voice.

On a contested issue, residents mostly want three things: what is happening, why, and where they can weigh in. These posts answer all three in plain words.

Our look at how local governments are posting about Flock cameras:
