

NEW GUIDE

What to post this month on social media.

Measured across 1.1 million posts from about 5,000 city and county governments. The most shared topic is the one most calendars underuse.

Two gaps worth closing →

CITY OF WINSTON-SALEM · NORTH CAROLINA

Make the infrastructure post useful.

WHY IT TRAVELS

A boil-water advisory with an interactive map: residents type their address and see whether it covers them. Built to be forwarded.

CITY OF PASADENA · CALIFORNIA

Use the weekend.

THE WEEKEND GAP

Pasadena closed the loop on a mountain lion sighting on a Saturday. Weekends carry only about 12% of posts, and residents are reading.

THE TAKEAWAY

Shift the mix, don't add volume.

Move a few posts a month toward the topics residents forward: roads, water, utilities and closures. More posts past about 30 a month don't help.

TRY GOVFEEDS

See how governments like yours post about it.

Search 1.4 million posts from about 5,000 local governments, and draft your own with AI grounded in real examples.
