

NEW GUIDE

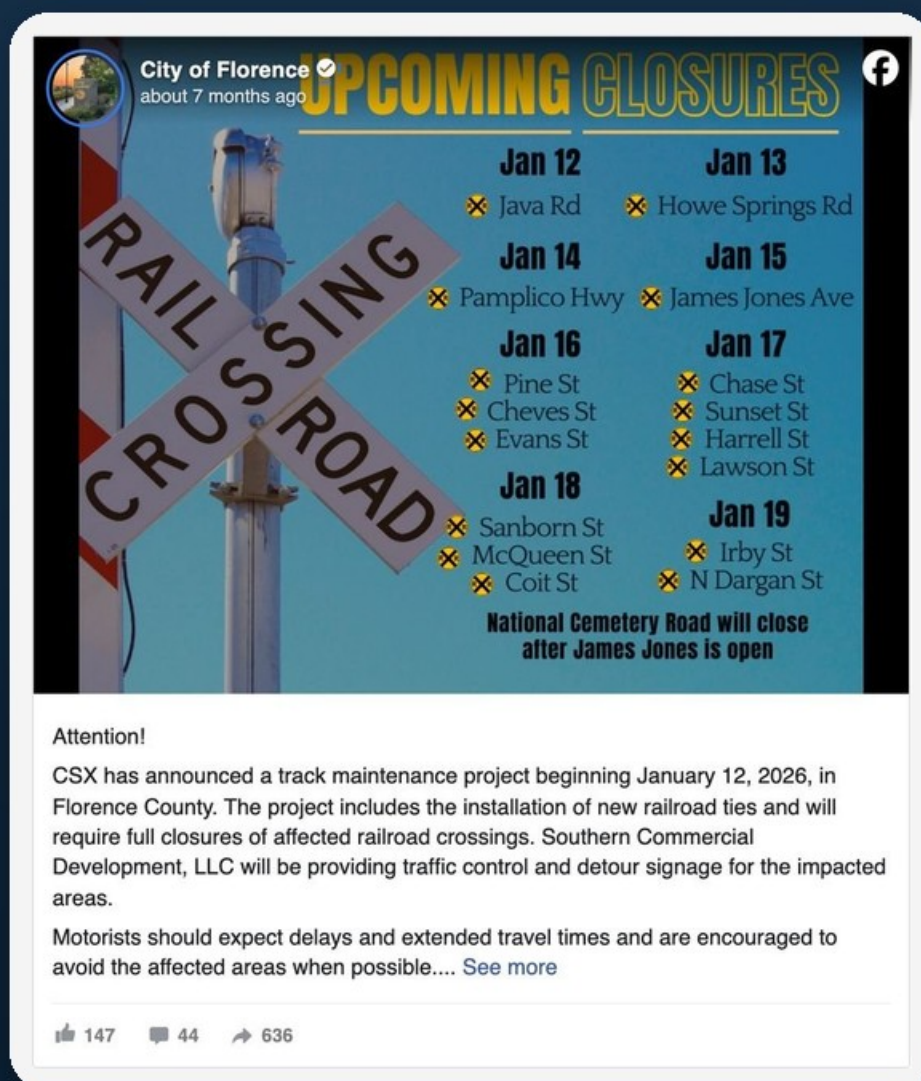

Reporting social media to your council.

What to bring to your council or manager: the posts that helped residents, why they worked, and one idea to try next month.

What to bring →

CITY OF FLORENCE · SOUTH CAROLINA

Bring the posts residents passed along.

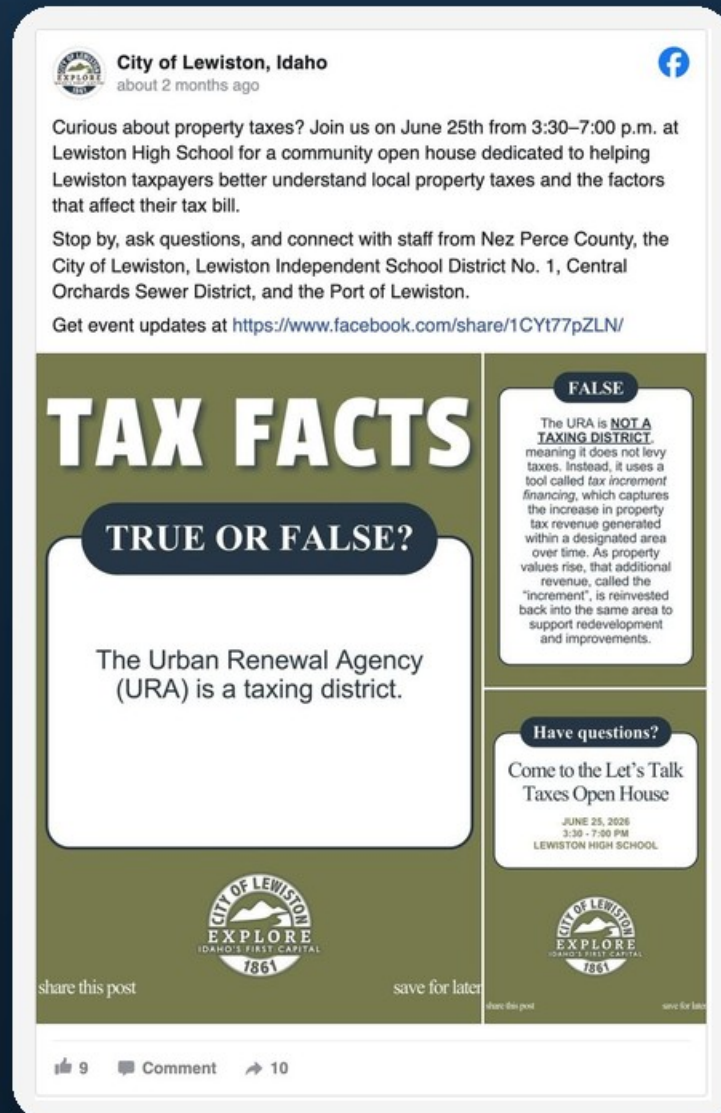

WHY IT BELONGS IN THE REPORT

A list of every rail crossing closing for track work, with dates. Residents forwarded it to each other, the clearest sign a post was useful.

CITY OF LEWISTON · IDAHO

Say why each one worked.

THE STORY TO TELL

True-or-false cards on property taxes, ending with an invite to an open house. It answered residents' questions before the meeting, and the format is reusable.

KEEP IT TO ONE PAGE

Three posts, one change, one idea.

Your three most useful posts and why they worked. One thing you tried this month and what happened. One idea from governments your size to try next month.

Skip follower counts: they mostly measure how big your community is.

FREE REPORT

See what's working for governments like yours.

**We'll build a free report for your government:
what you posted this month, the posts
residents found most useful, and ideas worth
borrowing from peers your size.**
